NUTRITION DRIVEN BY EVOLUTION

COMPANY PROFILE

THE PATH TO SUCCESS...

NANOX INTERNATIONAL is a privately owned company founded in 2008 by 2 partners. One of them carrying an expertise in the pharmaceutical field for over 20 years, the second carrying a long experience in the sales and marketing of food supplements for more than 15 years. NANOX INTERNATIONAL started its activities in the development of unique sport supplements at a European level but rapidly consolidated the company world wide .

NANOX INTERNATIONAL markets its product line successfully in 4 continents and can count on an enthusiastic, motivated team of national distributors for its product line NANOX NUTRICEUTICALS in more than 40 countries.

Johan Quintens (Nanox International), Véronique Jacquet (Nanox International), Johannes Andersson (Distributor Sweden)

COMPANY STRATEGY

NANOX INTERNATIONAL developed a series of niche-oriented, proprietary product formulations.

These highly innovative products are offered in various forms , i.e powdered concentrates, tablets, capsules, chewables, bars and functional drinks.

Thanks to an in-depth competence in various activities ranging from own research to pre-clinical and clinical development, regulatory expertise and direct, unique marketing NANOX INTERNATIONAL established the company on a world wide basis through exclusive distributors partnerships.

VISION & MISSION

NANOX INTERNATIONAL strives for high ideals in order to offer sport, wellness and health customers a golden standard of quality in sport supplementation and as such also enhance quality of life.

NANOX INTERNATIONAL philosophy is to remain true to their core ideals of honesty, value, innovation and excellence.

NANOX INTERNATIONAL mission is to constantly expand and introduce world novelties at least every 2 to 3 months to the market

MANUFACTURING AND REGISTRATION

Nanox International has organized the manufacturing of its products through different third parties, working according to the most exigent food processing standards.

Nanox undertakes on a regular basis complete quality audits of its production units assuring the application of full HACCP regulations and even meeting the strict GMP standards of pharmaceutical manufacturing.

All our subcontractors are accredited according to ISO 22000 and/ or obtained GMP certification.

The production sites are situated in Belgium and Germany according to the specific nature of the product and to the specifications of the manufacturer's production know-how whether this is powder filling, tableting or chocolate and sports bar production.

All the products of Nanox International also are notified in the European community and comply with the latest regulations on food and nutritional supplements as current in the EC.

Where necessary full adaptation to local regulations will be applied.

DISTRIBUTION

Nanox International is working without exception with exclusive subcontractors for its distribution guaranteeing our local partners the most professional marketing and sales in order to achieve a successful distribution.

This approach and model allows Nanox International to enter new markets counting on the expertise of already established partners creating strong and productive business partnerships, sharing economic benefits and risks.

RESEARCH AND DEVELOPMENT

Nanox International is organizing its own research and development for its proprietary products in a wide range of areas including fat loss, increasing lean body mass, strength, stamina and applying the latest developments in the field of preservation, processing, packaging and distribution.

During the physical, microbiological and chemical makeup of its products Nanox International makes use of the highest standards as described in the Food Codex, DIN and AFNOR – standards, guaranteeing to deliver tasty, nutritious, safe, and convenient products.

Special attention is made to accordance with WADA regulations when creating typical sports product formulations.
